This matter has passed through the Council - and a grant of 53095-1-10 for expenditure already incurred from L. Funds General has been agreed to. This money was spent in all the Districts for completing the works which had been started in the previous year - but no sanction was obtained - It is beyond that the orders of Govt. prohibiting such irregular expenditure without due sanction would be emphasized - The expenditure may now be duly sanctioned.

In continuation of my letter

Bill of Rupees 1035-4 for the com-

vide

been kept incomplete at the end of June 1900. Out of this allotment an expenditure of Rupees 1324 was incurred on account of works executed by the Revenue Department and including the outlay on the work of improving the Kalyani at Sravanabelagula viz. a sum of Rupees 5'838, the total expenditure out of the grant from Local Funds & General amounts to Rupees 7162. A great portion of the lapse in case of works executed by the Revenue Department was owing to the necessity for revision of estimates as water was not met with at the expected depth in the wells for which provision was made out of this grant and consequently additional amounts have been shown under the head "appropriation for 1901-02." Final payment for other works has not been made as the measurements were taken almost at the close of last year.

A sum of Rupees 357 required for appropriation during the current year

year on account of the work of widening the Semawati Hole-Nallah has also been included in the revised statement received by the Executive Engineer Hassan Division in his No. 780 Dated 22nd September 1934 a copy of which is herewith submitted for reference.

Under the circumstances recited above I request that you will be good enough to move Government to accord sanction to a grant of Rupees 85-2 out of Local Funds General for appropriation on incomplete works.

Sir,

With reference to your No. $\frac{8412-20}{L.F.\ 29-1900}$ of
the 3rd December 1901, sanctioning grants
from Local Fund General for the execution
of certain works, I have the honor to state
that the amount required for completing the
incomplete works of previous years as per
list submitted with this office letter No.
175 dated 17th August 1901 was Rs. 9717-10.
But the Government ordered in their order
under reference, proceed to sanction only
Rs. 8599-7-4, for completing
certain incomplete well works. The renewal
of the grant for other works has not
been sanctioned. A list of such works
was.

was prepared and placed before the District Board on the 18th January 1902. At the meeting the necessity for each work was considered and the responsible members present were of opinion that the works entered in the revised list now submitted were absolutely necessary in the interest of the public. The well-works are all under-progress and some of them, approaching completion. Some of the Sanitary works in the Chamarajanagar Taluk are reported to have been already completed. As the measurement bills however were not received in time they were not paid for during the past year. The grant now applied for amounts to only Rs 3,207-12-6. An extract from the proceedings is herewith submitted. I request that Sanction of Government may be kindly obtained for the renewal of the said grant.

To,

Sir,

I have the honor to state that an estimate for Rs. 2138/- for sinking a well in the bed of the tank at Hosadrug was sanctioned by Government from Local Funds General in their Proceedings No. 4144-5 dated 7th October 1897 E.F.I. 96 and an outlay of Rs 1750/8/- was incurred on this work up to the end of June 1902. Appropriation of Rs. 388/- for the remaining work was asked for in this office No 415 dated 10th December 1902 which is pending sanction of Government. In March 1901 the Amildar had reported that the northern portion of the stone built wall of the well had suddenly given way as it was not built on a solid foundation and much time has been since lost in correspondence which

which has had the effect of extending the damage.

I have inspected the well and I am satisfied that the damaged portion of the work should be repaired before the next rains as otherwise it may not be possible to repair the damage and complete the remaining work within the sanctioned amount viz Rs 2138/-. The well is a work of great public utility. In consideration of this urgency and with a view, as already stated, to get the work completed, if possible, without exceeding the sanctioned amount of Rs 2138/-, I have, in anticipation of funds being granted from Local Funds General as applied for in this office letter of the 10th December last, directed the Amildar of Hosadurga Taluk to carry out the work at once and beg that the necessary funds may be placed at my disposal.

I have the honor to be,

Sir,
